

Get me out  
Take me anywhere but here  
I had my doubts  
But you made them disappear

How you lied  
Should have seen it all along  
I won't cry  
'Cause my faith's still going strong

I wanna believe I wanna believe  
There's more than you and me  
I wanna believe  
That we were meant to be

I gotta believe  
There's someone there for me  
You know I believe  
That love will set me free

Let it be  
Let it all go down to hell  
Boy I've heard  
All the stories that you tell

I don't care  
You look silly with your friends  
Save your breath  
This is where the party ends

I wanna believe I wanna believe

I wanna believe I wanna believe  
There's more than you and me  
I wanna believe  
That we weren't meant to be

I gotta believe  
There's someone there for me  
You know I believe  
That love will set me free
