

Feelings

Lasgo

Don't you dare to play with my feelings
I can't take it anymore
You spin the world around, you turn me upside down
I try to stay far away from you
Far away from you

Why do you still try
When you are the one to blame
Why do I still cry
It'll never be the same

You are begging me to stay with you
But you are driving me insane
Get out of my way
And I will walk alone
I don't wanna be part of your game
I don't wanna be part of your game

Why do you still try
When you are the one to blame
Why do I still cry
It'll never be the same
