

Lying

Lasgo

Got this feeling lately
Something's on your mind
Your friends don't like me baby
Wonder what they've said today
You know I love you
What's going on
Let's move on,
don't think about them,
know that they are wrong

You got to hold on
No matter what they say
If you fail to be strong
They're gonna have it just their way

'Cause my heart ain't lying
No my heart ain't lying
'Cause my heart ain't lying

Is there something baby
Can you give a sign
The stories they are telling
You know every word is a lie
You can believe me
My love is true
Let's move on,
those people only like to see you blue

You've got to hold on
No matter what they say
If you fail to be strong
They're gonna have it just their way
'Cause my heart ain't lying

'Cause my heart ain't lying
No my heart ain't lying
