

Night on fire

Lasgo

I see you look in my direction
You know I long for your affection
You're not what I need
But you can make my night complete
'Cause I really want some satisfaction

So come on
Show me what you got
Come on
Oh boy you make me hot

Well come on
And set the night on fire
Come on
I'm burning with desire

Let's get away and start a riot
It's what you want so don't deny it
You're not what I need
But you sweep me off my feet
You're so perfect I just gotta try it

So come on

So come on
Show me what you got
Come on
Oh boy you make me hot

Well come on
And set the night on fire
Come on
I'm burning with desire
