

Rush

Lasse Lindh

At the end of the rainbow you can lay me down
Right by the sea by the water and kiss me kiss me twice
But there ain't no rush
This is not just another big big crush
But there ain't no rush
This is not just another big big big big crush
By the sand by the desert you can put me to sleep
In the war by the frontlines you can make me weak
But there ain't no rush
This is not just another big big crush
But there ain't no rush
This is not just another big big big big crush
But there ain't no rush
This is not just another big big crush
But there ain't no rush
This is not just another big big big big crush
