

All Will Break

Last Days Of April

right this way. i'll lead the way. don't be afraid. and don't you tell. don't mind the dark. just close your eyes. don't be afraid. i'll lead the way. i won't tell. won't be afraid. right after you. just lead the way. i'll close my eyes. and let you lead. won't be afraid. and i won't tell. all this time. i've spent time on spending time with you. i've spent time on being bound for you. i was there for you. all will break. i swear that it 'll break. and no one told me it will break. so down we fall. fall through it all. to reach for you. is to let you win
