## Last Days Of April

Gather round  
With you I hope it'll be here  
Although it doesn't dare to come near  
I'll wait

Every hour  
I get a little closer  
And just as I shall touch it  
You call

I'm awake.  
The rest of you are sleeping  
What if you will miss it  
When it comes

Glad for all  
All the months it gave me  
Is there some way I can repay it?  
Wish I could

I came so close this time  
So close to find  
What it once gave  
To me

Let it pass  
Pass on to this new kid  
I'll know just he will feel  
When it comes

And when he gathers round  
His closest friends to see it  
How I wish that they won't miss it  
Like you did

I came so close this time  
So close to find  
What it once gave  
To me  
To me  
To me

I came so close this time  
So close to find  
What it once gave

I came so close this time  
So close to find  
What it once gave  
To me
