

Call of the Tribe

Last Tribe

Try to understand
Their longing whispers
Talking with the other side
Someone out there
Tries so hard to reach you
The secret world is opened wide

Suddenly there is no sound
The angels stop their song
Watching your spirit fly away
This is your final day

Tomorrow won't be
The world you're used to see
It's the world of the tribe
Calling you
This will be a new start
Hear the voice from your heart
It's the call of the tribe
Calling you

The ferryman is waiting close behind you
He is really eager to leave
Take a step outside your weak body
It's now your life will begin for real

Suddenly there is no sound
The angels stop their song
Watching your spirit fly away
This is your final day

Tomorrow won't be
The world you're used to see
It's the world of the tribe
Calling you
This will be a new start
Hear the voice from your heart
It's the call of the tribe
Calling you
