

Flying High

Last Tribe

Take one step and try your wings
Wings that take you far away
Your body leaves the ground
You feel safe and sound
There's no reason for you to stay

Listen to the thunder
Leave the world down under
Reach out for the lightnings up above
No need to hesitate
Have a little faith
Use your wings just like a dove

Fly away to the sun
I'm flying high, I will reach the sky
Fly away, now your gone
I'm flying higher and higher, I will never die

Loose your gravity and rise
Rise up from your cold dark prison
Tear down the bars. Rip off your chains
Unlock the door to heaven

Listen to the thunder
Leave the world down under
Reach out for the lightnings up above
No need to hesitate
Have a little faith
Use your wings just like a dove

Fly away to the sun
I'm flying high, I will reach the sky
Fly away, now your gone
I'm flying higher and higher, I will never die

Listen to the thunder
Leave the world down under
Reach out for the lightnings up above
No need to hesitate
Have a little faith
Use your wings just like a dove

Fly away to the sun
I'm flying high, I will reach the sky
Fly away, now your gone
I'm flying higher and higher, I will never die
