

Made of Stone

Last Tribe

Climbing up on mountain made of fear
Heavy steps that are leading to the throne
Those who stand in his way will disappear
He will control the world on his own

Enemy comes and goes
He puts them out one by one
Victory is what he knows of
He won't stop until he's done

He's made of stone
You are never safe
He's made of stone
He'll eat you alive
He's made of stone
Danger are close
He's made of stone
There's nowhere to hide

There's no justice in the world that he rules
Make a wish that you don't ever meet him
He's the judge and the jury so you're gonna loose
Pray won't help but do it anyway

Enemy comes and goes
He puts them out one by one
Victory is what he knows of
He won't stop until he's done

He's made of stone
You are never safe
He's made of stone
He'll eat you alive
He's made of stone
Danger are close
He's made of stone
There's nowhere to hide

Enemy comes and goes
He puts them out one by one
Victory is what he knows of
He won't stop until he's done
