

# The Eternal Curse

Last Tribe

I know you can hear me  
Don't you try to run  
I know that you fear me  
You gonna pay for what you've done

You tried to fool me  
Now your punishment will come  
There are no rules here  
Feel it in your body and bone

Eternal curse  
The spell that makes you blind  
Eternal curse  
Unforgettable pain that twist your mind  
And make you mine

I'm not a preacher  
I will only say this one  
It's too late for prayers  
Welcome to your new world

I am your nightmare  
The last dream you ever dream  
Don't try to make up  
Your journey has just began

Eternal curse  
The spell that makes you blind  
Eternal curse  
Unforgettable pain that twist your mind  
And make you mine
