

Golden

Late Night Alumni

Wait for me.
You were right.
You're absence, it burns too bright.
And so it goes
Since I'm alone now
I'd like to think that we can work this out.

Take some time and think it through.
You know what I'd like to do.
We could take what's good to golden.
Make it golden, yeah.

Reappear in my life.
This distance never felt quite right.
I started out so close to empty.
I'm brimming over. I've no room left in me.

Take some time and think it through.
You know what I'd like to do.
We could take what's good to golden.
Make it golden, yeah.

Take some time and think it through.
You know what I'd like to do.
We could take what's good to golden.
Make it golden, yeah.
