

## Best In The Class

Late of the Pier

You gotta loosen up  
You gotta concentrate  
You gotta play it right  
You gotta fall in love  
You gotta live the dream  
You gotta warm it up  
You gotta speak your mind  
You can always change

You gotta know what's real  
You gotta hold yourself down  
You should be direct  
You gotta scream and shout  
When you're so confused  
How do you know what's true?  
Should you really do what they say?  
We've been planning this too long
