

Best In The Class

Late of the Pier

You gotta loosen up
You gotta concentrate
You gotta play it right
You gotta fall in love
You gotta live the dream
You gotta warm it up
You gotta speak your mind
You can always change

You gotta know what's real
You gotta hold yourself down
You should be direct
You gotta scream and shout
When you're so confused
How do you know what's true?
Should you really do what they say?
We've been planning this too long
