

# Never In A Million Years

Laura Branigan

Oh, if I could touch you  
It'd be a once in a lifetime dream come true  
And oh, if I could have you  
Just one night, just one time  
But I know I'll never get the chance  
I'll never get a second glance

Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years

Oh, I need you  
If you could only see inside my heart  
And oh, to be near you  
close enough, to reach and touch  
well I've thought it over in my mind  
If I could walk across the bridge of time

Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years

But I know, I'll never, never, never get the chance  
I'll never get a second glance

Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years  
Never Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years
