

Golden

Laura Jansen

When nothing holds
When all the lights have turned away
Deep in the dark
Light years, you feel light years from yesterday
There's still a spark
A million sparks
Light the whole sky

'Cause it's all the work of stars
We are golden, we are golden
And they fall right where you are
We are golden, we are golden
We are golden

My tiny world
I built as far as I could see
The whole thing fit inside
The smallest person I could be
But I'm breaking out
Help me connect
To the whole sky

'Cause it's all the work of stars
We are golden, we are golden
And they fall right where you are
We are golden, we are golden
We are golden
Every beat of every heart
We are golden, we are golden
We are golden
Every ending, every start
We are golden, we are golden
We are golden

In the middle of your heart
Is a place that's never dark
In the middle of your heart
In the middle of your heart
Never broken, never scarred
In the middle of your heart
There's a place that's never dark
Never broken, never scarred
In the middle of your heart
Never changing

'Cause it's all
We are golden, we are golden
And they fall right where you are
We are golden, we are golden
We are golden
Every beat of every heart
We are golden, we are golden
We are golden
Every ending, every start
We are golden, we are golden
We are golden

In the middle of your heart
In the middle of your heart
Is a place that's never dark
