

# Dance Like Nobody's Watching

Laura Marano

Sometimes it feels like everyone's eyes are on you  
What will they think you're so afraid to make a move  
You're second guessing every, every step yeah  
You gotta go and find that comfort dance  
And show the world who you are  
When you get down on the floor, on the floor, on the floor

Come on and dance like nobody's watching  
Let me see'em hands  
No don't ever drop them  
Just let yourself go woah  
and be wild, wild  
Forget about what everyone else says  
Show'em what you got and that you're ready to rock it  
Just take a chance yeah  
Come on and dance, dance  
Like nobody's watching

Doesn't matter what anyone else is doing yeah  
Just close your eyes  
Be yourself and feel the music  
So go and do whatever feels so right yeah  
Let out all the amazing there inside  
And show the world what who you are  
When you get down on the floor, on the floor, on the floor

Come on and dance like nobody's watching  
Let me see'em hands  
No don't ever drop them  
Just let yourself go woah  
and be wild, wild  
Forget about what everyone else says  
Show'em what you got and that you're ready to rock it  
Just take a chance yeah  
Come on and dance, dance  
Like nobody's watching

You're strong  
So keep on dancing  
You can do no wrong  
So keep on dancing  
It's OK to be yourself  
Just let it all come out

Come on and dance like nobody's watching  
Let me see'em hands  
No don't ever drop them  
Just let yourself go woah (let yourself go)  
and be wild, wild (yeah)  
Forget about what everyone else says  
Show'em what you got and that you're ready to rock it  
Just take a chance yeah (take a chance)  
Come on and dance, dance  
Like nobody's watching
