No Place Like Home

Laura Marano

There's nothing wrong with spending summer in another city I've seen the lights above the streets at night, they look so pretty I've flown above the clouds and thought I'd never come back down (bac k down)

Now I find myself where I started Picked right up like we never parted Fells like I'm in between Am I wide awake or in a dream? (a dream)

No matter where I go There's no place like home There's no place like home No no no matter where I go There's no no no There's no place like...

There's noting better than a wave that's louder than the ocean I heard the sound and there was love, I felt every emotion I always wanted more and I got what I waited for (waited for)

Feet on land, I know I belong here Can't forget, I'm never alone here So put your arms around me make me feel like I've been found (I'm found)

No matter where I go There's no place like home There's no place like home No no no matter where I go There's no no no There's no place like...

No, Matter where I go, No, No matter where I go There's no place like home There's no place like home No no no matter where I go There's no place like home There's no place like home (home) No no no matter where I go There's no no no There's no place like home
