

Who do I call just to say what's up?  
If the day got me down again  
And who do I bug on my five minute break  
Cause I know that you'll give me ten

And who do I call cause I love that song?  
And I know you'll sing along with me  
When I need to make my day

Who do I call?  
When I need to hear hello  
Let me go on  
Although you've heard it all before  
Who do I call to make me smile?  
I'll wait a while, Ohh  
And Redial

Da Da Day Da Da Da Day

You always know who I'm talking about  
When I'm talking about you know who  
and you always like the things I like  
When you don't like the things I do

When I hop a fence that makes no sense  
Till I have the evidence with me  
When I need to get away

Who do I call?  
When I need to hear hello  
Let me go on  
Although you've heard it all before  
Who do I call to make me smile?  
I'll wait a while, Ohh  
And Redial

I'd be so alone without you  
on the telephone  
I'd be so alone without  
you on the telephone

Who do I call?  
When I need to hear hello  
Let me go on  
Though you've heard it all before  
Who do I call to make me smile?  
I'll wait a while, Ohh  
And Redial

Who do I call?  
When I need to hear hello  
Let me go on  
Though you've heard it all before  
Who do I call to make me smile?  
I'll wait a while, Ohh  
And Redial
