

Take the Night Off

Laura Marling

You should begone beast
Begone from me
Begone from my mind at least
Let a little lady be

I don't want you to want me
Wouldn't want you to know
I don't care where you've gone beast
I care you go

Take the night off
And be bad for me
Take your right off
And be bad for me

You're a night bird, early riser
You have the kind of wing
To take her and surprise her

I didn't understand where you had gone
Didn't know you'd be right back
I didn't hear the night song
Calling for you into the black

Take the night off
And be bad for me

Didn't ask you to save me
Not when you knew me well
Wouldn't ask you even to behave for me
I know there's no helping hell

Take the night off
And be bad for me

Take your right off
And be bad for me
