

Child In A Universe

Laura Nyro

Oh, star shine on me
I?m just a grain in the universe, I come from the Earth
And the Earth is a grain in the galaxy

Could you send some peace on Earth
To a child of the universe
To a child of the universe?

Oh, sun there are planets at the top of the world
And hills and passions under my feet
Rocks and fish and worlds I may never see

I only live on Earth
I guess I?m just a child of the universe
I guess I?m just a child of the universe

Oh, moon I saw your light on, it was gettin? late
Can we talk a while? You see I lost my smile
I just can?t cope, I just can?t relate

If you send some peace on Earth
Send it to a child of the universe
Send it to a child of the universe

To a child in a universe
Send it to a child in a universe
To your children
