

Triple Goddess Twilight

Laura Nyro

I was a sweet baby in my
Mother's arms
We were strollin' through the
Park
Picnic
Peace walk
Progress
Just a baby in her arms
My politics are based on her
Charms

Triple Goddess Twilight
Slow down
Feel the land
Violet everywhere
I'll meet you there

Mother, you died young and left
Me
Your twilight colors
Rosé
Ah, burgundy
Coral mist
What are the shades of loneliness?

Triple Goddess Twilight
Late sky, violet and pink
All roads lead to Venus
I'll meet you there
In your dream of progress

My grandfather painted houses
On a ladder in the sky
He was working class
Urbane
Street-wise
Said, "we can change the world,
Girl,
Love will inspire,"
Told me this through whiskey
And revolutionary fire

Triple Goddess Twilight
Last trace of ruby and flame
First star leads to Venus

He left a war
To walk in peace now
Said life was for
Our dream
Our dream of progress
