## **Shadow Blues**

Laura Veirs

There's a shadow beneath the sea There's a shadow between you and me I've learned that love is scared of light Thousand seeds from a flower Blowing through the night

Your blackened kiss on my cheek Your blackened kiss runs river deep A stranded fish dear, i'm on the sand Blue water from a pool Up to the clouds i'll land

Though i am dark 'bout the whys of wanting Though i am dark, i'm still a child Gonna dig a coal mine, climb down deep inside Where my shadow's got one place to go One place to hide...
