

## Shape Shifter

Laura Veirs

Shape shifter  
Thousands in the air  
Moving as one  
Magic flocks the reaches  
I'm speechless on the ground  
Black blizzard round a cold grey sun

Winter's on the way  
I think we're gonna make it out  
If we stick together now  
If we stick together now

Too many times we fight  
Turning day into night  
Kicking that fire right out  
But the cools underneath they burn  
I turn to you and fine  
I love the very one I spurned

Winter's on the way  
I think we're gonna make it out  
If we stick together now  
If we stick together now

Shape shifter  
Thousands in the air  
Moving as one
