

# Through the Glow

Laura Veirs

Flat stone skipping the surface sink  
Into the golden deep  
Crawl inside like a honeybee  
Creep into the heart

Give me snow and give me salt  
Troubles cracks and creaks  
Watch 'em tumble to the sea  
Come back 'round you see

Can you hear the cliffside's heart  
Bubbling red and deep?  
When you're slow not stop and start  
You can burn a memory

Oh-oh-oh-oh-oh...

Gather with me like the gathering clouds  
Smooth the twisted lines  
Float above the quilted plains  
Up to the stars we'll strain

I can hear the sparkling dark  
Calling me to swim  
Through the sound waves  
Through the glow  
Into the undertow

Oh-oh-oh-oh-oh...
