

## To the Country

Laura Veirs

Don't recognise my face  
Everybody knows your game  
Feel like I'm running in place  
Everything's changed, everything's changed  
I'm gonna move to the country  
She's gonna move  
So I can see the stars  
Heavenly stars, the heavenly stars, the heavenly stars

She's gonna move  
Heavenly stars, the heavenly stars, the heavenly stars

I dove into the night  
Bathed in the beautiful blue light  
Sheltered inside a bat cave  
Me and my baby had a conversation  
Gonna move to the country  
She's gonna move  
So I can see the stars  
Heavenly stars, the heavenly stars, the heavenly stars

I'm gonna move to the country  
She's gonna move  
So I can see the stars  
Heavenly stars, the heavenly stars, the heavenly stars
