Don't recognise my face

Everybody knows your game

Feel like I'm running in place

Everything's changed, everything's changed

I'm gonna move to the country

She's gonna move

So I can see the stars

Heavenly stars, the heavenly stars, the heavenly stars

She's gonna move Heavenly stars, the heavenly stars, the heavenly stars

I dove into the night
Bathed in the beautiful blue light
Sheltered inside a bat cave
Me and my baby had a conversation
Gonna move to the country
She's gonna move
So I can see the stars
Heavenly stars, the heavenly stars, the heavenly stars

I'm gonna move to the country
She's gonna move
So I can see the stars
Heavenly stars, the heavenly stars, the heavenly stars
