

Breathe Me In

Laura Welsh

Slow conversations keep drawing me in
I lose concentration, don't know where I've been
I figured it out
I figured you out
And you take control while I stop making sense
Claiming my soul for your lost innocence
I wanna get out
I can't get out

So will you let me know how this became obsession?
Will you let me go after our confession?
Cause I know that we will show the signs
There's time

Dim the lights, let's begin
Cause now the air's getting thin
Baby, just breathe me in
Can't you just breathe me in?

I felt so stupid while you shut your eyes
Taking the leap into faith in disguise
You're coming around, ooh ooh ooh
You're coming around

So will you let me know how this became obsession?
Will you let me go after our confession?
Cause I know that we will show the signs
There's time

Dim the lights, let's begin
Cause now the air's getting thin
Baby, just breathe me in
Can't you just breathe me in?
(3x)
