

Big Fat Man

Laurel Aitken

All my life I've been searching for a girl
All my life I've been searching for a girl
Now that I found her
I'm gonna try my best and keep my arms around her

There's a big fat man who lives around the corner
There's a big fat man who lives around the corner
And he won't take my girl away from me
Big fat man
Big fat man
Big fat man
Big fat man
Can't you see my baby loves only me

He tried so hard to take my girl from me
[Tried so hard]
But he don't know we were meant to be
[He'll never take her]
Now that I found her
I'm gonna try my best and keep my arms around her

There's a big fat man who lives around the corner
There's a big fat man who lives around the corner
And he won't take my girl away from me
Big fat man
Big fat man
Big fat man
Big fat man
Can't you see my baby loves only me

All my life I've been searching for a girl
[I think I found her]
All my life I've been searching for a girl
[And she's mine]
Now that I found her
I'm gonna try my best and keep my arms around her

There's a big fat man who lives around the corner
There's a big fat man who lives around the corner
And he won't take my girl away from me
Big fat man
Big fat man
Big fat man
Big fat man
