

I Want What I Want

Lauren Christy

Tears, money, honey on my bread
Sugar on my pillow, songs in my head
Head to the church, I love to repent
Say what I mean when it's not what I meant
Oh I wanna lay in bed on Monday
Wearing a diamond studded hat
Live a good life, a full life, do it all again
Love a man forever, who's a thousand man

I want what I want, I want it now
I feel what I feel, don't bring me down
I know what I know, I don't know how
But I want what I want, I want it now

I want to lead, follow, wallow in the mud
Do it for my Daddy, do it for God
God knows, am I getting it wrong?
But who the hell cares when you're gettin' it on
Oh, I want something to believe in
When it all comes crashing down
Remake the world, no pain or violence
Turn up the volume, 'til there's total silence

I want what I want, I want it now
I feel what I feel, don't bring me down
I know what I know, I don't know how
I want what I want, I want it now

So take me to an angel
Who has seen it all before
'Cause tonight I need an angel
To come walking through my door

Do it for my Daddy, do it for God
God knows, am I getting it wrong?
But who the hell cares

I want what I want, I want it now
I feel what I feel, don't bring me down
I know what I know, I don't know how
I want what I want, I want it now

I want what I want, I want it now
I feel what I feel, don't bring me down
I know what I know, I don't know how
I want what I want, I want it now
