

Letterbomb

Lauren Christy

[Chorus:]

And I'm sending you the sky
And I'm sending you the sea
And it's all for you, for you
From me, from me, from me
And I'm sending you to heaven
Heaven has no jealousy
And it's all for you, for you
From me, from me, from me

Sending you a picture of my bed
Sending you a picture of a gun
Sending you a picture of the voice in my head

[Repeat chorus]

Sending you my coat to keep you warm
Sending you a letter with a bomb
A bomb
Sending you a picture of the calm before the storm

[Repeat chorus]

And I'm sending you to heaven
Heaven has no misery
And it's all for you, for you
From me, from me, from me
Under the junk mail in the hallway
It waits for you
A kiss from me

[Repeat chorus]

And I'm sending you to heaven
Heaven has no sodomy
And it's all for you, for you
From me, from me, from me
And I'm sending you the sky
And I'm sending you the sea
