

Find A Way

Lavender Diamond

Oh my stars, riding in cars
Hiding in all of the hardest places
Oh my dear, riding so near
Hiding in all of the sweetest spaces

You find a way, you find a way
You find a way to love, to love
To love, to love

Oh my friend, riding near the end
Rising to meet you and darkness we praises

Find a way, you find a way
You find a way to love, to love
To love, to love
