

Rise In The Springtime

Lavender Diamond

It's time of endless night
Here comes a runny sight

We live to see the dawn of sky
We live to see the dawn of sky

And so we rise up to the east
And so we rise up to the sun

The sun is come
The sun is come

Rise in the springtime
In the springtime
Of the sun

Rise in the springtime
In the springtime
Of the sun

Dear, my life with you
Has grown so sweet
And grown so true

Each day is new
Just like today
Each day is new
Just like today

And so we rise up to the east
And so we rise up to the sun

The sun is come
The sun is come

Rise in the springtime
In the springtime
Of the sun
