Rise In The Springtime

Lavender Diamond

It's time of endless night Here comes a runny sight We live to see the dawn of sky We live to see the dawn of sky And so we rise up to the east And so we rise up to the sun The sun is come The sun is come Rise in the springtime

In the springtime Of the sun

Rise in the springtime In the springtime Of the sun

Dear, my life with you Has grown so sweet And grown so true

Each day is new Just like today Each day is new Just like today

And so we rise up to the east And so we rise up to the sun

The sun is come The sun is come

Rise in the springtime In the springtime Of the sun (5x)
