

# Hurts Like You

Lawson

I was just a game you like to play  
Baby, it's a shame you had to change  
I'm crushed by every word I hear you say  
But I gotta know, oh, oh

Everything I did, I did for you  
But I could never win, I only lose  
Even when my dreams have fallen through  
I never let go, oh, oh

I could fall out of the sky  
Get hit by lightning a thousand times  
Crash my car and break my bones,  
And I could lose everything I own..

Nothing hurts like you  
Nothing hurts like you  
Nothing hurts like you, ooh

Just another day turns into night,  
I can't even fight another fight  
Even when the sun is shining bright,  
It's cold, oh, oh

Remember the time when we danced through the summer?  
Wrote in the sand our initials forever  
Did you know the truth?  
'Cos I need to know, oh, oh

I could fall out of the sky  
Get hit by lightning a thousand times  
Crash my car and break my bones,  
And I could lose everything I own..

Nothing hurts like you  
Nothing hurts like you  
Nothing hurts like you, ooh

Nothing hurts like you..

Nothing hurts like you  
Nothing hurts like you  
Nothing hurts like you, ooh

Nothing hurts like you  
Nothing hurts like you  
Nothing hurts like you, ooh
