

Still Hurts

Lawson

You and me, still hurts
Days go by, gets worse
I don't wanna see you
I don't wanna know where you are
I'm scared of these feeling
I'm broken and bleeding here without

You - don't know how it feels,
breaking up and falling down
With you - it's never gonna be,
not the way it used to be
everyday it gets harder to breathe.

You and me, still hurts
though that this could work
I'm going out of my head and
I'm trying to forget how i miss you (god, i miss you)
And i'm scared of this feeling
life with no meaning, here without

You - don't know how it feels,
breaking up and falling down
With you - it's never gonna be,
not the way it used to be
everyday it gets harder to breathe.

You - don't know how it feels,
breaking up and falling down
With you - it's never gonna be,
not the way it used to be
everyday it gets harder to breathe

You and me still hurts
