

Mask of Malice

Lay Down Rotten

Demon god-enthroned the rat
Empower the great slut
Sacrament of bewilderment
Rites of deprivation-broken mirror
Guilt of the slave-serve, serve as you bleed
Serve as you bleed

Look behind the mask of malice
See the grimace of viciousness
Rip apart the mask of malice
To face the truth-can be so hard

Pass the deep dark hallway
Into another bitter night
Unwilling to turn the other way
Scared of the voice within
Pure poison all the lies
Nightfall, nightfall of the soul

Look behind the mask of malice
See the grimace of viciousness
Rip apart the mask of malice
To face the truth-can be so hard

See the bloodlines-writings on the wall
Foretold-the end of it all

Look behind the mask of malice
See the grimace of viciousness
Rip apart the mask of malice
To face the truth-can be so hard

Shine down-silver is the light
Estranged from myself-promise me nothing
All has to fail-all has to fade

Rip apart the mask of malice

Rip apart the mask of malice
