

# Heavenly

Lea Michele

I wipe my memory  
Clean like a white board  
I've seen every color inside  
Sacrifying forward  
I reach for the table and try to remember myself  
Once you have been fooled  
You know every trick  
But I guess this one time I was blind  
You wrapped us in glory  
You smiled at my story  
Pretending to know how to feel

It's heaven when you call  
Heaven when you're calling me out from under  
Heaven only knows  
Heaven has a hold on me  
Oh, my savior  
[x2]

This should be heaven  
I say to myself as you cover your body in me  
These days are not long enough  
Nights are too cold  
And sometimes I just need someone  
In nights when we both wake up  
Stare at our faces in mirrors not ready to love

It's heaven when you call  
Heaven when you're calling me out from under  
Heaven only knows  
Heaven has a hold on me  
Oh, my savior  
[x4]
