

# Sentimental Memories

Lea Michele

You make me feel on fire  
There's more to me than what's outside  
It's cruel to tell me how you feel  
Then expect for me to deal  
With the sting you left behind

If you wanna settle me down, babe  
You better treat me like I'm yours

I know you don't have time for this  
But I think you might start to miss  
Our sentimental memories  
Our sentimental memories

All along you were a liar  
I should've known this love would die  
I'm a fool 'cause you made it seem so real  
Oh, how could you just steal  
My heart and say goodbye?

If you wanna lay me down, babe  
Give me all I need and more

I know you don't have time for this  
But I think you might start to miss  
Our sentimental memories

I know you won't make time for this  
So I got nothing left to give to our sentimental memories  
Our sentimental memories

I know you don't have time for this  
But I think you might start to miss  
Our sentimental memories

I know you won't make time for this  
So I got nothing left to give to our sentimental memories

I know you won't make time for this  
So I got nothing left to give to our sentimental memories  
Our sentimental memories
