

# Lessons of Love

Lea Salonga

See the children play  
Listen to the things they say  
One-on-one to one another  
They're just having fun  
Finding out it can be done  
They don't separate by cover  
Ooh, young hearts  
Facing to feel it so naturally  
And the flower grows from the seed and

Practice makes perfect and we tryin' enough  
And we're bound to be learning  
The lessons of love  
Coz we're never too old and never too young  
To be teaching each other the lessons of love

Got some work to do  
There's so much we can improve  
Piece by piece we come together, yeah  
In the neighborhood  
I know we can make it good  
But we've got to make it better

Oh woh oh, inside each of us has a melody  
But we've got to find our harmony

Practice makes perfect and we tryin' enough  
And we've got to remember  
The lessons of love  
Coz we're never too old and never too young  
To be teaching each other the lessons of love

Imagine how this world could be  
If all of us would live in peace  
Nothing good comes easily  
Together starts with you and me  
Yeah, oh yeah, aha  
Lessons of love

Practice makes perfect and we tryin' enough  
And we're bound to be learning  
The lessons of love  
Coz we're never too old and never too young  
To be teaching each other

Practice makes perfect and we tryin' enough  
And we've got to remember  
The lessons of love  
Coz we're never too old and never too young  
To be teaching each other the lessons of love

Practice makes perfect, try it enough  
(Oh, never too young, aha)  
And we've got to be learning  
The lessons of love (Lessons of love)  
And we're never too old and never too young  
(To learn the lessons of love)

To be teaching each other  
The lessons of love  
Oh, never too old, to learn the lessons of love  
Oh yeah, lessons of love
