## **Till I Met You**

Lea Salonga

I never dream 'Cause I always thought that dreaming was for kids Just a childish thing And I could swear Love was just a game that children play And no more than a game Till I met you I never knew what love was Till I met you This feeling seems to grow more everyday I love you more each day I believe you I believe in every word when you say "I love you all the way" Now I can swear Love is not a game that children play So tell me that you'll stay Till I met you I never knew what love was Till I met you This feeling seems to grow more everyday I love you more each day...ohhh You and I should be together Can't you see, can't you see Till I met you I never knew what love was Till I met you This feeling seems to grow more everyday I love you more each day Till I met you I never knew what love was Till I met you This feeling seems to grow more everyday I love you more each day Till I met you Till I met you Till I met you Till I met you Till I met you...
