

National Defense Blues

Leadbelly

I had a little woman workin' on that National Defense
I had a little woman workin' on that National Defense
That woman got to the place, where act like she did not have no
sense

Just because she was workin', makin' so much dough
Just because she was workin', makin' so much dough
That woman got to the place, did not love me no more
Every payday would come, her check was big as mine
Every payday would come, her check was big as mine
That woman thought that Defense was gonna last all the time
That Defense is gone, just listen to my song
That Defense, it is gone, just listen to my song
Since that Defense been gone, that woman done lose her home

SPOKEN:

Yes, she is ... yeah well all right, then
I will tell you the truth and it's got to be the fact
I will tell you the truth and it's got to be a fact
Since that Defense has gone, that woman losed her Cadillac
