

## Fade to Blue

LeAnn Rimes

I think I know the way this story's gonna end  
It's getting to the part I hate, when heartache closes in  
The stage is set, It's time for me to leave  
Cause I don't wanna see the final scene

Fade to blue  
We didn't make it through  
Let the curtain fall

And fade to blue  
We played the part of lovers  
Knew every line by heart  
But sometimes love just can't erase  
What's written in the stars  
So before the bitter words come crashing down  
Let's leave what's left, and let the lights go down

And fade to blue  
We didn't make it through  
There won't be a curtain call  
And fade to blue

Almost happy endings have no way of coming true  
Once the feelings start to fade...to blue  
We didn't make it through  
So let the curtain fall  
Just fade to blue  
And fade to blue.
