

Together, Forever, Always

LeAnn Rimes

Life can be distance between us
days even years could pass on
but the love that lies between us will
always be worth holdin' on

Together forever always
from the dawn til the end
of each day no matter
how far away you are we're
together forever always

I could try to forget you but the
memories keep lingering on
but the dreams i dream about
you keep me holdin on

Together forever always
from the dawn til the end
of each day no matter
how far away you are we're
together forever always

Together forever always
from the dawn til the end
of each day no matter
how far away you are we're
together forever always
