

Won't Be Lonely Long

LeAnn Rimes

Leave me lonely, just don't keep me hangin' on
These sleepless nights might kill me
But what don't break me will make me strong
Enough to get past the past in front of me
I'll have to pass some memories
I'll be alright, get by just fine
Say goodbye and

Bring on he's long gone, done me wrong
Tears I'm gonna cry
When you say goodbye, baby I won't be lonely long
I won't be lonely long

Go on and go on with your life
Just don't waste one more minute of mine
Save your precious breath, the one that took mine away
Once upon a time you had me
Hangin' on every word, believin' everything I heard
You're leaving sooner or later
Baby why keep me waitin'?

Bring on he's long gone, done me wrong
Tears I'm gonna cry
When you say goodbye, baby I won't be lonely long
I won't be lonely long

I'd be lying sayin' I ain't afraid
But fear of leavin' ain't no reason to stay
Ah, hey

So baby bring on he's long gone, done me wrong
Tears I'm gonna cry
When you say goodbye, baby I, when you say goodbye, baby I won'
t be lonely long
I won't be lonely long
Yeah, won't be lonely long
