

Don't Work

Leatherface

And as fashionable as anything new sometimes I credit you
With more intelligence than you've got and
Sometimes I don't credit you with enough
Today and we can make things happen
And don't say can't and don't work too hard
A new way and you can make things happen
It's a feeling just don't work too hard
You're the centre of the universe make the most of it
And do your very worst
Get up there with the rest the bashful cynic
It's alright to be second best
Don't waste your time it's the heart that's hard
It's the head that's soft pretty slogans and the crimes
Are meaningless tokens don't waste your time
It's the heart that's hard it's the head that's fucking soft
Industrious and arthritic I'd forgive you everything just don't
sing
For love at first site and for peace of mind she's a man
He's a woman they're all human
Today and we can make things happen
Don't say can't and don't work too hard
A new way and you can make things happen
It's a feeling just don't work too hard
Don't waste your time it's the heart that's hard
It's the head that's soft pretty slogans and the crimes
Are meaningless tokens don't waste your time
It's the heart that's hard it's the head that's fucking soft
