

# Pale Moonlight

Leatherface

Let some light shine on the poor and the shy and the ugly ones  
It's burning in my eyes again they aren't angry  
Because we're dancing with the devil in the pale moonlight  
And I can try to put it right and we ought to pray  
Cause we're dancing with the devil in the pale moonlight  
And I will try to put it right and we wait for daylight  
We're moving along with sad sad sad songs  
And I don't like the \*raining\* \*and they aren't\* moving with the times  
And I can't beat the walls you build you build buildings  
Because we're dancing with the devil in the pale moonlight  
And I can try to put it right and we ought to pray  
Cause we're dancing with the devil in the pale moonlight  
And I will try to put it right and we wait for daylight  
Cause we're dancing with the devil in the pale moonlight  
And I will try to put it right and we wait for daylight  
Live die on your faith live life on your days  
It's burning in my eyes again they can't take the spark from my eyes  
We can't kill the light that shines which burns it's burning  
Because we're dancing with the devil in the pale moonlight  
And I can try to put it right and we ought to pray  
Because we're dancing with the devil in the pale moonlight  
And I can try to put it right and we wait for daylight  
The meek shine in Heaven, nothing if no misery  
Unevolved doesn't mean the same and we ought to pray \*light\*  
Because we're dancing with the devil in the pale moonlight  
And I can try to put it right and we wait for daylight
