

# Never Again

Leatherwolf

Never gonna trust again again  
Never knew too much back then back when  
Never had enough back when back when  
Never gonna trust again again again

Lost out on the roads behind you  
When the river runs dry they'll find you  
You've got your ass to save  
Subconsciously deranged  
And now you got played, blamed, shamed

What have I become  
Condemned my friend  
Into this hole I plunge  
I descend  
Nailed to the cross  
I transcend  
Transgressions hold a cost  
To avenge, to avenge, to avenge

Locked up in the lies behind you  
Don't surrender the sick might find you  
You've got your ass to save  
Subconsciously deranged  
And now you got played, blamed, shamed  
Out of this place

You feel like nothing
