

# Off The Track

Leatherwolf

I remember well or was it just a dream?  
Between lines in the dark it seemed  
The others whirl in a little space but that seemed to be unknown

There was nothing left not a single chance, no!

Take me back  
To a world I know  
Off the track  
Let me go

The words were something gone but that's destiny  
Eyes open wide to the thrill I see  
A flash from the past  
It cracked out at the last  
Travel time and space and I fly through space

You gotta  
Take me back  
To a world I know  
Off the track  
Let me go  
Take me back  
Take me to a world I know  
Off the track  
Let me go

Slip into my nightmare  
My dream's reality  
I need to find my way
