

# The Way I Feel

Leatherwolf

I can't see you  
You can see me  
Tell me what's real  
Or just set me free

Nothing at all  
Will ever be the same  
When you need my touch  
Call out my name

Whoa-whoa-whoa-oh

Night after night  
With your golden glare  
The candle of flame  
I'm lost in your stare  
I'll be there for you  
Just let me know where

Hold on tight and never let go

(Forever)  
My memories of you last  
(Forever)  
Do you feel the same?

(No one can feel)  
The way I feel you now  
(No one can feel)  
The way I feel your love

Whoa-oh  
Ooh-ooh

You're always out late  
To watch the sunrise  
The light on your face  
As you look to the sky  
At last we're alone  
I see the love in your eyes

Hold on tight and never let go

(Forever)  
My memories of you last  
(Forever)  
Do you feel the same?

(No one can feel)  
The way I feel you now  
(No one can feel)  
The way I feel your love  
(No one can feel)  
The way I feel you now  
(No one can feel)  
The way I feel your love

Oh  
Yeah-heh-heh-heh  
Ahh!

I'm feeling so empty  
So empty inside  
When you're not here with me  
To light up my life  
I said I will love you  
So stay by my side

Hold on tight and never let go

(Forever)  
My memories of you last  
(Forever)  
I still feel the same?

(No one can feel)  
The way I feel you now  
(No one can feel)  
The way I feel your love  
(No one can feel)  
The way I feel you now  
(No one can feel)  
The way I feel your love

Oh, feel your love

No one can feel  
The way I feel you and your love
